AI & Compliance: Artificial Intelligence Prompting, AI Training Feedback, PII Handling, Data Privacy Regulations, Document Review.

Technical Skills: Microsoft Excel, Power BI, Data Visualization, Digital Communication.

Professional Skills: Remote Collaboration, Client Relations, Written & Verbal Communication, Detail Orientation.

PROFESSIONAL EXPERIENCE

Freelance Linguistic Annotator / Data Specialist

March 2026 – Present

Remote

- Review and analyze extensive datasets to train next-generation AI systems, ensuring high levels of accuracy, completeness, and relevance for business data models.
- Conduct thorough document and data reviews while strictly adhering to established data privacy guidelines and Personally Identifiable Information (PII) protocols.
- Identify, flag, and resolve data quality issues, inconsistencies, and anomalies within large-scale business data to prevent model degradation.
- Deliver detailed, clear, and concise written feedback and recommendations on data findings to refine AI reasoning and model learning.
- Contribute to the continuous development and refinement of quality assurance standards for ongoing remote data review assignments.

Data & Operations Manager

January 2026 – Present

FoneFinder | Nairobi, Kenya

- Manage client and inventory data to facilitate device transactions through trusted local dealers, ensuring accurate tracking and reporting.
- Process sensitive client information and financial transaction records with a strict commitment to data

Digital Communication Intern

August 2026 – September 2026

Kenyatta International Conference Centre | Nairobi, Kenya

- Managed digital communication channels and analyzed user engagement data across multiple social media platforms to optimize outreach.
- Conducted quality assurance on outgoing digital content, maintaining high attention to detail, brand integrity, and strict adherence to organizational communication standards.
- Collaborated with cross-functional project stakeholders through clear and professional communication to align digital strategies with broader commercial objectives.

Inventory Data Specialist (Storekeeper)

Past

Tumaini Electronics and Households | Nairobi, Kenya

- Managed comprehensive data entry for all incoming inventory and conducted rigorous quality assurance checks on product exits.
- Maintained 100% data accuracy in stock control records to resolve inconsistencies, identify anomalies, and support smooth business operations.
- Reviewed operational documents and stock logs to ensure complete and accurate tracking of high-value business assets.
